Cheryl,

Thanks for filling in the dates for the website text. I don't see any errors but am copying the meeting DFO, Diana Wong.

We'll provide the draft listserv (for when Eventbrite registration opens) first thing tomorrow.

Thanks again.

Steve

Subject: Two OSCP items for asbestos draft RE release tomorrow

Hayley/Steve – we're still planning on announcing the asbestos draft RE and peer review tomorrow. A couple of things on the OSCP side of things:

1. I understand from Don that the registration information for the peer review meeting won't be ready for tomorrow's announcement. If that's the case, what's your plan to ensure folks get this information prior to the April 22 registration deadline? I'd suggest you draft a listserv to go out next week and get that up to Allison/me for review ASAP.
2. Please take a final look at the peer review web page we drafted to ensure all the dates are correct. Link and text below.

Thanks for your help.

Peer Review of the Draft Risk Evaluation for Asbestos

EPA is holding a virtual public meeting of the Toxic Substances Control Act (TSCA) Science Advisory Committee on Chemicals (SACC) on April 27-30, 2020 to review the draft risk evaluation for asbestos. The agency will use the scientific advice, information, and recommendations from the SACC, as well as public comments, to inform the final risk evaluation. The meeting will be virtual (conducted on the phone and webcast only). Registration information for this meeting will be provided on this page soon.

- [View the draft risk evaluation, charge questions, and supporting documents for asbestos.](#)

Upon publication of the Federal Register notice, the draft risk evaluation will be available for public comment for 60 days in docket EPA-HQ-OPPT-2019-0501. Please submit comments on the draft risk evaluation by April 22, 2020 to allow the SACC time to review and consider them before the peer review meeting. Comments received after April 22, 2020 and prior to the end of the oral public comment period during the meeting will still be provided to the SACC for their consideration. Anyone submitting written comments after April 22, 2020 should provide an electronic copy to the DFO listed below. EPA will continue to accept comments on the draft risk evaluation until the end of the 60 day public comment period. The agency will consider all comments received on the draft risk evaluation by the end of the public comment period when developing the final risk evaluation. When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets#tips>.

EPA will hold a preparatory virtual meeting on April 7, 2020 for the panel and public to comment on the clarity and scope of the draft charge questions for the April meeting. [Register to attend the virtual preparatory meeting.](#)

For additional information please contact the DFO, Dr. Diana Wong at wong.diana-m@epa.gov.
